[Kurupt]

Sometimes your homies can be your worst enemies  
They're the closest to you, they know your ins and outs  
Act like bitches... let's go

[Chorus: Dion]

Got to go THAT WAY, keep it MO-VING  
Cause you ain't tryin to get paid, keep it MO-VING  
Steppin out on faith, ready for whatever  
It's written so cain't worry 'bout what's next  
cause you NE-VER KNOWWWW

[Q-Tip]

You never know, rain sleet hail snow  
See you gotta accept that's how things go  
Prepare for the rainy day or the sun's glow  
But there's clouds movin in and the cloud's gonna blow  
But this too shall pass, hold on to your dreams  
And we can do without all the haters and demons  
X that, put your foot forward and move  
Gotta a whole lot to get and not much to prove  
Chitter-chatter niggaz fuel the wrong info  
They wanna see a good dude fall off and go  
Mad at me cause of my expressive flow  
Mean motherfuckers I denounce you, SO~!  
C'mon, listen, how many ways can I  
say the damn thing that I said so many times  
Let's get it, let's move as an entity  
If you break ranks on the outskirts is where you'll be  
Everybody, we gon' get up this mornin  
Accept the howlin winds from the storm and  
We gon' stand out like the sound of a clarinet  
And you can stand in awe but the rest of us are gonna  
step

[Chorus]

[Kurupt]

As hard as a nigga tries, it's almost like a nigga tryin  
not to get this paper poppin, put that on a nigga's life  
Gots to get this paper pourin, sometimes I feel inside

The homey closest to me, is tryin to take a nigga's life  
I'm too close to be surrounded by ghosts  
I got a vision, aspiration that most can't induce  
Cause they visions and aspirations the same size as  
aspirin  
Dissolvin in life's water, leadin toward disasters  
Headed in the opposite direction, is the picture  
You're afraid of success, I'm tryin to be successful  
Grow and expand my life fits picture  
Have to go my own way or I'ma go down wit'cha  
My faith in faith, destiny and scripture  
Helps to develop this confidential mixture  
This formula enforce confidential mixture  
Detrimental, who'd ever thought we'd stop  
operatin as a team, 16 on the block  
We made plans but we'll never be able to fulfill 'em  
This is shit we put together since we was little  
Every time we had dreams you found a way you could  
kill 'em, you

[Chorus]

[Kurupt]

Listen, just tryin to put y'all up on some game  
This Kurupt Young Gotti  
My nigga Hi-Tek, we doin it superbig  
Dogg Pound Gangstas, listen

[Chorus] - to fade
