If we're meant to be together  
I think we'll lead you back to me [??]  
Don't even try to find a reason  
It's written in the book of destiny

Ever since the day I saw you  
All I know when my heart stopped [??]  
Suddenly I gave up everything I've got

[Chorus]  
We can be lovers  
We can be friends  
We can be everything  
Now that I found you again

Searched the world over  
You're here with me  
A whole new forever  
Naturally

So if we're meant to be together  
I think we'll lead me back to you [??]  
We just made our souls' sensations [??]  
That no one else would ever do

I've always had this strange sensation  
With every choice I made each day  
I never ever should've let you walk away

[Chorus]

Now I wanna thank you [You know I wanna thank you]  
For comin' to me [cause you know you wanna thank me  
too]  
And I wanna love [cause you know I wanna love you]  
So in my sleep [cause I know you're gonna love me too]

There's no rhyme or reason [that we want to be  
together]  
But I can pretend [we're perfect together, me and you]  
I left everything to see you again

So we can be lovers [if we're meant to be together]  
We can be friends [i think i'll lead you back to me]  
We can be everything [i'll try to find her]  
Now that I found you again [its written in the book of  
destiny]

Search the world over[since the day I saw you]  
And you're here with me [ever since my heart stopped]

A whole new forever [forever]  
A whole new forever oh oh  
Naturally

mmhmmhm
