You've got everything you need
Still ready to open up and bleed
Reading all the magazines
Reading all the books
About the real diamond rings
And good looks
If you want a fire baby
That's what you will
Don't say I didn't warn you
Love could kill

So why
You wanna fall in love (Fall in love)
Crashing high (Crashing high)
You wanna fall in love

Come on

You've got everything you'll ever need
New York City, Paris if you please
It's not about the fortune
Not about the fame
Once you're flying higher
Everything's the same
But you want a fire
That's what you will
Don't say I didn't warn you
Love can kill
So why (Why)
You wanna fall in love (Fall in love)
Crashing high (Crashing high)
From high above (High above)
Tell me why

Reading all the magazines and books
About the real diamond rings
And good looks
So you want a fire
That's what you will
Can't say I didn't warn you
Love could kill

So why (Why)
You wanna fall in love (Fall in love)
Crashing high (Crashing high)
From high above (High above)
Tell me why (Tell me why)
You wanna fall in love (Fall in love)
Crashing so high (Crashing high)
From high above (High above)
Tell me why (Crashing high, high above)
Crashing high (Crashing high, high above)
You are crashing higher
