Every time I hear you breathe
In the still night next to me
And your innocent heart to beat
I feel so complete

Just let me listen to you gently breathe
No words do we need
Let your innocent heart to speak
Still waters run deep

What you say
What you do
You do it all for me and you
What I do
And what I say
I do it all to be this way
Every time I hear you breathe
In the still night next to me
And your innocent heart to beat
I feel so complete

Just move a little bit closer to me
No words do we need
Let your innocent heart beat
Still waters run deep

Chorus
