Well God is coming  
To break your heart and to show you up  
Yeah and I was just druggin  
To let me know all about the ups  
Yeah and I'll be believin  
The itty second that he comes  
And I'll be a big boy  
As soon as I can figure out  
And I will be huggin  
All tied around your mouth  
Try I gotta heart that's blue  
It's a glad to meet you  
Sigh I got the hand write too  
And I'll be glad to see you off  
Everything I own I know it's there  
All the things I ever had to care  
Fallin at my feet like lead  
Fillin out the sheets instead  
When I was a keeping  
I knew just how I would pull it up  
Yeah and I was believin  
All the things that I had made up  
Yeah and I was just growing  
All big enough to walk  
Yeah but I was the big one  
Chasin all that I ever saw
