Got a new revelation  
wrote on the wall  
ya I got a new inspiration  
watching you fall

I put a hole in your pocket  
that you never saw  
ya I put a hole in your pocket  
you never saw

so now you wanna get back all your love  
that you say is coming in from above  
and you promise that you got a new tune  
well that's not enough

I got a new concentration  
cause you never call  
ya I got a new invitation  
watching you crawl

so now you wanna get back all your love  
that you say is coming in from above  
and you promise that you got a new tune  
but you never even know what to do

what's the point of talking if that's not enough
