I use to know this girl who slang the green shit  
had it all going on but it didn't mean shit  
she wanted to be a star with big cars  
and all the fame that came her way I gotta say  
that she was all that and a bag of Indoe  
with no seeds such a delightful weed  
I wish she was still around but no she's gone  
my guess she got blessed and she got put on  
Hey yo I miss that girl she was the bomb  
Had the bomb diggy bomb bom and up on the quraun  
had all the holy book with looks to kill still  
I never met another dealer with that appeal  
with those electric eye's hypnotize any wise man  
surpize the queen of the lye.

B Smooth

2nd half of 1st verse

Mo' better bitches bounce in five deep cliques

Dipped in victoria secret scents

Hangin/ with men under surveillance from the  
government

While Don Juan types floss rites - she's chewin' on ice

Meditatin' with her camp gettin' damp

She's a femme fatale freak bitch high maintenance

Got her fuckin' clit pierced chained to her anus

Professional fo wettin' niggas up, suck em first till' they bust

Swallow nut then she's quick to strut right ou the projects

Been a whore since '91

Suckin' niggas dicks for fun holdin guns in her buns

Type of chick to tel you fuck her in the ass talkin' shit

while she's going LALALALALALULULLU

On ya dick!!!

(hook)

I remember that freak bitch

up in the club a Victoria secret

she gives love no matter which way you keep it

you get thrown out the picture now peep it

you get the glove bitch.....

Its been years since I've sen the queen of reen on the screen

so I stepped up to her screen door like a dream

or better yet like a fin needing a fix

she wasn't like other chicks

on the scene puling schemes for chips

she was like Run DMC tougher than leather

raw bitch but then she was soft like a feather

never again will I meet a woman of her nature

sky pager turned of dating one of the Lakers  
lucky ass nigga with a jump-shot  
he got that hot shit all in his pocke on lock  
damn I guess I'm jealous that other fellas got with her  
but her sister's bangin too what should I do?  
Fuck it I'll do like my nigga Smooth would the princess  
planting my seed in the next queen of Buddha bless  
fuck playing the 2nd string on the squad  
I'm blowin up all in your face word to God.

B Smooth

2nd half of 2nd verse

Yeah, I fucker in the hershey tunnel  
Deep inside it made her pussy bubble  
A Yo! She told me that it loves you  
I told her arch that back and let me see that ass  
And then I kissed it licked it stuck my nose all in  
position  
I told her baby listen -- Can't you see my fuckin dick is  
Throbbin' She started gobbalin, slobberin' dick  
gurgalin  
'Burpin' it  
I told her it don't matter baby jusst don't bit it  
No nolds barred my dick was hard enough to dent a  
car  
I stuck it in between to spread da red sea apart  
The pussy fart was a mothafuckin' work of art  
She rode my dick just like a kawasaki till her puss  
started

Soundin' sloppy like an old jalopy

Time to nut took off the condom slapped her on the  
butt

Then I busted in her in between her lips, then she  
started

Lickin' it because it was good shit!

Protein packed enriched

Yeah I got my shit the Freaky Mr. Ricks

(hook)

I remember that freak bitch

up in the club a Victoria secret

she gives love no matter which way you keep it

you get thrown out the picture now peep it

you get the glove bitch..
