Intro:

Hello, this is Undi.

I'm not in right now

so if you'll please leave your name, number, and a  
brief message,

I'll get back to you as soon as possible.

I promise

Excuse me for a moment

Let me introduce myself

I am love overflowing

And I've come to bring you help

I've been watching

You for a while, and your heart is in dismay

My only reason on this earth

Is to bring you a brighter day

(chorus)I can show you how to make love

If you want me to

I'll keep you satisfied

I'll keep you satisfied

Come to my room

Take off your clothes

And we can start to flow

Girl i'm so glad that you

Wanted to stay

Sit back relax cause girl my loves on the way

All the possibilities

Open your mind relax and let your body feel the beat

Are you ready

To relax your mind and let me take you away

Gee, loving you is fun

Assuming your sensuality

Means us one on one

I can show you how to make love

If you want me to

I'll keep you satisfied

I'll keep you satisfied

I can make you feel alright

When you give your love to me

All the lovin you need

It will be like a fantasy

I'll show you

My baby, baby, baby, baby

Let me do you right

All through the night

My baby

liieeee oooh oh

I can show you how to make love

If you want me to

I'll keep you satisfied

I'll keep you satisfied
