Tried so hard  
I gave away my heart  
And had it handed back in pieces  
The secrets mark my place  
You walk with solemn praise  
Strange how fast you walked away

Can't make up your mind  
A change it comes too late  
The tables turn and turn and turn and turn

Chorus:

The lights go out and (it's me)  
You're left alone in the dark (Stay)  
I'm walkin' gently away  
(Stay)  
I hear you screamin'  
Yellin' at the top of your lungs (Stay)  
I hear you beggin' me to stay

I don't want to stay  
I won't stay (Stay)

Was it something I said  
Left you feeling better off dead  
The only dying one is me  
Notes of agony  
Twisted feeling inside of me  
And I my soul in time of prayer

Can't make up your mind  
A change it comes too late  
The tables turn and turn and turn and turn

Chorus

I don't want to stay  
I won't stay (Stay)

What about now  
Will I want to see (3x)

The lights go out and  
You're left alone in the dark  
I'm walkin' gently away  
(Stay)  
I hear you screamin'  
Yellin' at the top of your lungs (Stay)  
I hear you beggin' me to stay  
The lights go out and  
You're left alone in the dark  
I'm walkin', walkin', walkin' away  
(Stay)  
I hear you screamin' yeah  
Screamin' at the top of your lungs (Stay)  
I hear you beggin' me to stay  
I don't want to stay  
Stay  
I don't want to stay  
Stay  
You can't make me stay  
Stay  
I don't want to stay
