Warm skin, smooth lips
Our hearts are strong and toned
Our tongues speak of the unknown

I know that we're not here on our own
Your ear's pressed to your phone as you wait for me
You're waiting there so patiently until

I throw caution to the wind
And suck your sweet poison
Your body's everything
Your body's everything

As I trip on my desire
I dive into your fire
Your body's everything
Your body's everything

Fast asleep, my chest your cheek
You softly hum a tune to me
From deep within your dreams

And your eyes tell the story of my life
And your smile
The reason I am still alive

Throw caution to the wind
And suck your sweet poison
Your body's everything
Your body's everything

As I trip on my desire
I dive into your fire
Your body's everything
Your body's everything to me

You never let me down
No, no, no, no, no
You never let me down
Oh, oh, oh, oh, oh-ho

I throw caution to the wind

(Caution to the wind)
Caution to the wind
Your body's everything
Your body's everything

As I trip on my desire
(Trip on my desire)
I dive into your fire
Your body's everything
Your body's everything

I throw caution to the wind
And suck your sweet poison
Your body's everything
Your body's everything

As I trip on my desire
I dive into your fire
Your body's everything
Your body's everything
