"The Only One"

Visit "[The Only One](#)" on MotoLyrics.com

Ive hidden in the silence
Then I took it far away
I was living in the distance
In the corners of my day
You came into my life
And centered all my fears
Loving you is everything
The meaning to these years
Partners in time
Partners today
Walking through problems
That might have come out way
Cause when all is said and done
There's no need for me to run
Youre the only one
The only one I love
We turned over the pages
And saw the pictures there
The color might be fading
But I can see it clear
You walked into my life
And balanced every word
Loving you is everything
Everything Ive heard
Partners in time
Partners today
Walking through problems
That might have come our way
Cause when all is said and done
Youre the only one I love
Youre the only one the only one I love
Once I had a reason
To run and hide from you
Hiding in the silence
Was all I ever used to do
But now I know the feeling
Must be al about believing
Youre the only one
The only one I love.
