Well id like to tell you something all about the girl i
know bad
I wish today the world, my friends, would stop being
sad
Theres so much cheat-arounders, i feel that i could die
and i knooooow.. that i was born to cry!
Well if i ever tell you all about the things i have done
I cant remember having even one day of fun
I dont know what im doing, if i do its a lie
and i knooooow that i was born to cry!
So i cry ohoh! yeah i cry ohoh! i said ill cry! i said ill cry!

Well every girl i ever loved, always stepped down on
my feet
I thought i had a friend once, but he kicked out my
teeth
The thing i like and wanna have, i cant even buy
and i knooooow that i was born to cry!
I know some day, and maybe soon, the master will call
and when he does, ill tell you something, i wont cry at
all
Untill it happens folks, i guess ill sail without tide
and i knooooow that i was born to cry!
So i cry ohoh yeah, ill cry, i said ill cry, oh oh oh yeah i
said that i was born to cry, so ill cry!!
I know some day, and maybe soon, the master will call
and when he does, ill tell you something, i wont cry at
all!
Untill it happens folks, ill sail without tide
and i knooooow... that i was born to cry!
