I took time to think things over  
Time I didn't want to spare  
Cause someone told me I had things to fix  
Things I didn't want to repair  
So I was talked into sitting quietly thinking bout the  
things I'd done  
Didn't like it so I said wisely oh hell!  
Where's my fun?

Hail hail spit n' drool

I liked the way that things were going  
Don't like the way they're going now  
But I'd like to add there is a thing I can do  
Going to tell you what, where and when and how

Hail hail spit n' drool
