I took time to think things over - time I didn't want to
spare
Cause someone told me I had things to fix - things I
didn't wanna repair
So I was talked into sitting quietly thinking bout the
things I'd done
Didn't like it so I said wisely oh hell!
Where's my fun?

Hail hail spit n'drool

I liked the way that things were going don't like the way
they're going now
But I'd like to add there is a thing I can do - gonna tell
you what, where and when and how
