Do you know the  
secret hand shake?  
You best use it  
Here they come  
with ringing ears  
Social misfits

Someone's gotta go  
Just thought you should know  
And so it had to be  
The one who held the key

Check the time  
T minus 5  
And you're still looking  
Too good  
To be true  
So what's your secret?

Someone's gotta go  
Just thought you should know  
And so it had to be  
The one who held the key

Someone's gotta go  
Just thought you should know  
And so it had to be  
The one who held the key
