I've been around the world  
Taking credit for the things I've done  
I've done a lot of things  
And I just turned 21  
They tied me up  
Put red tape around my hands  
I got caught in the web  
Cause I didn't stand a chance

I can't control the state I'm in  
Go back in line and repeat it again  
I can't control the state I'm in  
Go back in line and repeat again

I said please Mr. Doctor won't you cure my disease  
I got a sore throat and I got scrubs on my knees  
No matter what I do I can't get it straight  
I tried to sort things out but I'm still stuck in the state

I can't control the state I'm in  
Go back in line and repeat it again  
I can't control the state I'm in  
Go back in line and repeat again

I'm gonna lie, I'm gonna cheat  
I'm gonna follow their lead then skip a beat  
I'm gonna lie, I'm gonna cheat  
And if that don't do it I don't know what will  
I'm gonna lie, I'm gonna cheat  
I'm gonna follow their lead then skip a beat  
I'm gonna lie, I'm gonna cheat

I can't control the state I'm in  
Go back in line and repeat it again  
I can't control the state I'm in  
Go back in line and repeat it again  
I can't control the state I'm in  
Go back in line and repeat it again  
I can't control the state I'm in
