

Hives, The "Well, Well, Well"

Visit "[Well, Well, Well](#)" on MotoLyrics.com

The present
has scared away the past
And there's nothing left
but now and future
Time is moving all to fast
I tried to grab some but it passed
But thats the way it'll always be for me and you

Pushing through
and pushing way to hard
in front of me
a cart filled with future

Well, well, well

Time is moving all to fast
I tried to grab some but it passed
But thats the way it'll always be for me and you

All to young
to young to think like this
Too much time has passed and I can't stand the future

Time is moving all to fast
I tried to grab some but it passed
But thats the way it'll always be for me and you
