When will you walk through my door, when will the
clouds disappear
When will the story unfold, when will there be no more
tears

'Cause it's okay, you say "Don't you want to get, don't
you want to get high"
Sing Lord knows, let go...don't you want to get, don't
you want to get high

Smile though the world feels so cold, sing though
there's no one to hear
Dream so the story unfolds, laugh so there'll be no
more fear

'Cause it's okay, you say "Don't you want to get, don't
you want to get high"
Sing Lord knows, let go...don't you want to get, don't
you want to get high

Lord there's a way, you know we'll say today...don't you
want to get, don't you want to get high"
Sing Lord there's a way, your love will save the day
Don't you want to get, don't you want to get high
