Put it in the right place, oh get into the right space

Move it at the right pace, don't you turn into a head case

Oh you drive me crazy

Chorus:

Don't say that you'll never be lonely, baby

Don't say that you'll never take chances, lady

Fee, fi, fo fum everyone wants it baby

Be high, have fun, everyone needs it baby

Oh put it in the right place, got to get into the right space

Oh move it at the right pace, oh it drives me crazy

Repeat Chorus

Put it in the right place, oh get into the right space

Move it at the right pace, ah squeeze it in a tight place

Oh it drives me crazy

Repeat Chorus

Put it in the right place, got to move it at the right place

Better get into the right space, light space, tight space
