Struck down you died, one December night
Taken in cold blood, under Texas twilight
The headlines all read, it was "punks vs. the jocks"
As your killer walks free, we're still left with this loss

[Chorus:]

We must teach tolerance, and stop this senseless
violence

We are at war

This war we will fight

But not with our fists

Vengeance will shed in the name of education

So sad we watch daily on the nightly news

Another act of violence, another taken too soon

From the streets, from the hands of man so hateful
and unjust

We must destroy this callus mind set and build each
other up

(Chorus)

No we need no more!

No more (4x)

Need no more, we don't need no more (4x)

(Chorus)
