One shot!

Bleeding, waiting for tomorrow
And when it's gonna end, oh yeah
But I can't get past tomorrow
'cos I know it's gonna mess up my head, oh no

Someone lift me up
And give me one shot
I'm good for any war now
Just show me where to hit

Kicking the shit with another brew in my hand
Knowin' that I'll be damned, oh yeah
I'm out to find another way
Oh, who knows my whereabouts now?
Where am I?

Someone lift me up
And give me one shot
I'm good for any war now
Just show me where to hit

Someone lift me up
And give me one shot
I'm good for any war now
Just show me where to hit

[Solo]

Someone lift me up
And give me one shot
I'm good for any war now
Just show me where to hit

Someone lift me up
And give me one shot
I'm good for any war now
Just show me where to hit
