"Every Time I'm Away"

Visit "[Every Time I'm Away](#)" on MotoLyrics.com

Every time that I'm away
You know my thoughts they
Seem to scatter

A million miles away
To ones of you and
Your sweet letters

Every time I'm away
You know I can't stop thinking of her
Every time I'm away
About a hundred times a day

Doot doo do

So I see you cannot stay
(She don't know me at all)
You won't let my house be you home
And leave me all alone
(She don't know me)
You know this stuff makes me so crazy
(And it seems to happen)

Every time I'm away
You know I can't take much more of this
Every time I'm away
Seven weeks without a kiss

Doot doo do

Its everywhere we go

Ain't that the way its supposed to be?
