"Set Closer"

With all the expectations in this town,
It's no surprise our music hits the ground.

You know we want you to get up and dance,
'Cuz we can't move to save a pair of pants.

(that's why things that come so easy need a little more
practicin')

Do you want to see the lights
See the lights my love?
At least that's what they say from up above.

You don't need money and you don't need fame,
Well we think radio is pretty lame.

And when the lights go down will you still be there?
And when the lights go down will you still be there?
I guess it's true that only fools fill the air.
And when the lights go down will you still be there?
