R. Walsh / Matty Malneck

Let's dream in the moonlight
Tell me that you love me
Tell the stars above me
What's in you heart

Let's dream in the moonlight
Say you're glad you found me
Put your arms around me
Before we part

Even though it's just pretending
And the night is almost through
I can say I'm only lending
When I give my heart to you

Let's dream in the moonlight
Let your lips touch mine
Though we're only dreaming tonight Tonight
