Once in my life I've got the real treasure  
There was your love, so gentle rare pleasure  
We were above our vanity and bustle  
There was a love, a shiny air castle

You were my part, all seemed to be forever  
You touched my heart, your greatest lover ever  
How many times you made me die in heaven  
You were the light of every single evening

Tell me why we have to be apart  
Was it just my dream? You took away my heart  
Wish you tell me lie, I do not need the truth  
'Cause you know that I, I'm still in love with you

Too many words you say I still admire  
Too many nights are cold without your fire  
It's not a crime, betray me for the last time  
Please tell me lie, you keep me in your mind

Tell me why we have to be apart  
Was it just my dream? You took away my heart  
Wish you tell me lie, I do not need the truth  
'Cause you know that I, I'm still in love

Tell me why we have to be apart  
Was it just my dream? You took away my heart  
Wish you tell me lie, I do not need the truth  
'Cause you know that I, I'm still in love with you
