We all climb a mountain  
Nobody knows who wins  
We start from the bottom  
When we're so young and clean  
The top is so high, but we're dreaming  
Stay there one day on the top!

You've got you're a mountain  
The way is wine and heart  
But dreams so attractive  
You know it's worth to start.  
You can not stop cause your dreaming  
Stay there one day on the top!

So we go - hop hop hop!  
To be on top top top  
The life is not a fairy tale.  
You catch me on the hop

Just push my dreams and hop  
I have to start once again.

So you top them all now  
You stay above them all  
Beware you can fall down  
Or fly to save your soul  
The top is so high and it's glimmering  
Stay there one day on the top.

Hop, hop, hop,  
Top, top, top.  
Hop, hop, hop,  
Top, top, top.
