

Golden Arm Trio

"White Noise"

Visit "[White Noise](#)" on MotoLyrics.com

Another Pendulum
Swinging towards the left and to the left again

I tried to stay to the right, and do what's right
We're all where to constant fight
You know it

I've been the one
Away
I'll be the first to say

Now I've become the rat
In experiments that I invent
And put myself through

I can't explain the process in my brain
All I say comes out the same
Like white noise

I've been the one
Away
I'll be the first to say
The way I've been is not cool
To be the one with nothing
I've always got nothing

I've been the one
Away
I'll be the first to say
The way I've been is not cool
To be the one with nothing
I've always got nothing
