I got this loud
I got this loud ... in my ear
A sound
And a vision but it's so unclear
I've seen this ... fallen out of hand
I feel my fingers are flat in sand
Somehow I don't think I'm gonna be landing on my feet
No, no, no

I need a minute, give me a minute
I wanna take things down real slow
Give me a minute, give me a minute
I'm not ready to let go

I'm fallin' to your eyes
An intoxicating surprise
That love spot slowly slides down the back of my throat

Oh, this love won't last
Oh, this love won't live past the night
A one night stand
A one night stand but it feels alright
It's come to this
How has it come to this, I just don't know
It's come to this
And it's all my fault

That's why I'm running away, running away, from a life
I just can't hold
That's why I'm running away, running away,
it's better than further down this hole

So give need a minute, give me a minute
I wanna take things down real slow
Give me a minute, give me a minute
I'm not ready to let go

And fallin' to your eyes
An intoxicating surprise
That love spot slowly slides down the back of my throat

Oh, this love won't last
Oh, this love won't live past the night
A one night stand
A one night stand but it feels alright
It's come to this
How has it come to this, I just don't know
It's come to this
And it's all my fault

That's why I'm running away, running away
That's why I'm running away, running away
Running away, running away
Running, running, running, running, running away
