Good morning, little school girl
Can I go home with you?
Tell your mama and your daddy
I'm a little school boy too
Way I learn this morning
Can't help myself
So young and pretty
Don't need nobody else
Good morning, little school girl
Can I go home with you?
Gonna leave here, baby
Just about the break of day
On the count of way you treat me
I got to stay away
Yeah, come on schoolgirl
Oh, I can't help myself
Love you, baby
Don't need nobody else
Good morning, little school girl
Can I go home with you?
Can I go home with you?
Gonna buy myself an airplane
Fly all over your town
Tell everybody, baby
Oh, the way you put me down
Good morning, little school girl
Can I go home with you?
Oh, you're so young and pretty
I don't know what to do
Good morning, little school girl
Can I go home with you?
Go home with you, go home with you
I go home with you
