

## The Derek Trucks Band "I Know"

Visit "[I Know](#)" on MotoLyrics.com

I wanna know how it feels to be kissed  
cold chills run'n up and down my spine

I wanna know how it feels to be talked to  
Till the word drive me stoned out my mind

Well I know how it feels to be lonely  
I know how it feels to be blue  
Come show me how it feels to really be loved  
And I'll spend my time love'n you

I wanna know how it feels to be needed  
I wanna know by the end of the night  
I wanna know how it feels to have a girl  
Who'll love me and treat me just right

Well I know how it feels to be cheated on  
I know how it feels to be blue  
Come show me how it feels to really be loved  
And I'll spend my time love'n you

Well I know there's pot-o-gold and the end of the  
rainbow  
That was such a long time ago  
Come show me how it feels to really be loved  
And I won't be blue anymore

Hold on baby Hold on  
Love me tighter babe  
I wanna know I wanna know  
I wanna know how it feels  
To be loved
