

Good, The Bad & The Queen, The "History Song"

Come the day
You see the sun
Hit the arch
A History song.

If you don't know it now then you will do.
If you don't know it now then you will do.

A ship across
The estuary
Sunday's lost
In melancholy.

If you don't know it now then you will do.
If you don't know it now then you will do.

A storm of strings
Far away
The hangers on
Saved the day

If you don't know it now then you will do.
If you don't know it now then you will do.
And if you don't feel it now then you will do.
And if you don't feel it now then you will do.
