Holy
Are You, Lord
Holy
Are You, Lord

And the earth will sing of Your glory
And the earth will sing

We lift You high
We lift You high
The name above the earth
We lift You high
We lift You high
The name above the earth

Holy (Holy, Holy)
Are You Lord
Holy (Holy, Holy)
Are You Lord (Are you Lord)

And the earth will sing of Your glory
And the earth will sing

We lift You high
We lift You high
The name above the earth
We lift You high
We lift You high
The name above the earth

We lift You high
We lift You high
The name above the earth
We lift You high
We lift You high
The name above the earth

The promise of redemption
You offer me the world
And I will worship You
Hold me, Savior

Give in to the world
And I will worship You

We lift You high
We lift You high
The name above the earth
We lift You high
We lift You high
The name above the earth

We lift You high
We lift You high
The name above the earth
We lift You high
We lift You high
The name above the earth

(Hidden Track - after a bit of silence)

Am I doing everything
That You wanted me to do
Lord You're my desire
And my heart it longs for You

And all I wanna do
And all I wanna see
And all I wanna be
And all I wanna know

Is in You(x8)
