A broken vessel lifted high  
A broken vessel here am I  
A humble heart before You Lord  
Because I want to know You more

To know You more  
To know You more  
To know You more  
Because I want to know You more

A broken vessel lifted high  
A broken vessel here am I  
A humble heart before You Lord  
Because I want to know You more

To know You more  
To know You more  
To know You more  
Because I want to know You more

To know You more  
To know You more  
To know You more  
Because I want to know you more
