Wear with pride
Every scar collected
Every time your knife
Took a liking to my vital signs
But I will not be found wanting

Hold me down
Try it, I dare you
Hold me down
I'll never let you
Cheat me
And beat me
And try to defeat me
And watch as it comes back to you

You got no right, sir
I'll soldier on
You got no right, sir
I've just begun
You got no right, sir
I'm on to you
Fire is catching
If I burn, you burn, too

Oh, do not
Underestimate the grit I got
In store
I will not forget what I have come here for
Your days are numbered

Hold me down
You have no power
Hold me down
This is my hour
All of your horses
And all of your men
Will fall at the force of my hand

You got no right, sir
I'll soldier on
You got no right, sir
I've just begun

You got no right, sir
I'm on to you
Fire is catching
If I burn, you burn, too

Left
Right
Left
Right
Left
Right, right, right

I may be bleeding
But I'm not retreating
And you'll never take me alive

You got no right, sir
I'll soldier on
You got no right, sir
I've just begun
You got no right, sir
I'm on to you
Fire is catching
If I burn, you burn, too

I burn
I burn
Fire is catching
If I burn, you burn, too
