Lately you've been acting unsure  
Of everything that we've worked for  
I can't speak for you but I think we can pull through  
No, I cannot look ahead to see our future, but instead  
I'll stick to working presently on you

Chorus:

And if there's a storm to weather

A storm to weather

I'll weather it

I'll weather it with you

If there's a storm to weather

A storm to weather

I'll weather it

I'll weather it with you

Time and time again you ask, "Do you think it's gonna last?"

I'm not gonna waste my time reassuring you

I would never lie to you, and no, I do not have a clue

And if you really think this through

There's not much we can do

(Chorus)

You don't know, no you don't know how much you mean to me

And I just know, yeah, I just know that we are meant to be

(Chorus)
