Let's go get a tattoo
Yours will say you love me and mine will say "I love
you"
Can't think of anything to do
Can you?
We'll write our names in the sand
We'll draw a heart to encompass them
We'll let the beach know where we stand because it's
permanent
I know, I know it's cliché, but it's true
I love you
Chorus:
I know with you that I'm always home
And I know I'll never be alone
I know with you that I'm always home
All I want to say is, "Je suis amoureux"
We'll say we've never felt this way
We'll put our love right on display
Too bad, so sad no one's ever felt this way
That's what we'll say
I know, I know it's cliché, but it's true
I love you
(Double chorus)
I know, I know it's cliché, but it's true
I love you
(Double chorus)
