Intro.

One look in your eyes
its all i need to make such day, perfect
I can't say a word
As i see you passes by right through me
when I see you smile
your smile makes my day, worthwhile

Verse I

I can't get you out of my mind
how I wish i could hold your hand
your so far away, but yet here inside of me your just a
heartbeat away!

Oh tell me what would i do
Oh girl i'm falling for you
Oh tell me what would i do
i dont even know you, but believe me for it's true...

Verse II

When i look at you, you look back at me
your face seems like heaven to me (oh yeah)
if only you could feel what's inside of me
Maybe you'll understand that my feelings are real..

Chorus

if only you could feel what's inside of me
Maybe you'll understand that my feelings are real..
