

The Devil Wears Prada "Sassafras"

Visit "[Sassafras](#)" on MotoLyrics.com

This is the faith, this is the faith complex
Where all it takes is another step
So we can then step again
It's not all about the numbers
It is not all about the numbers

This is the faith, this is the faith complex
Try not to write another disappointing letter to integrity
Only go faster when you've stopped and thought
Only go slower when you've learned of wisdom

Everything is a question of goodwill
But we're too busy delivering answers with arrogance

Isn't it funny how ones compassion diminishes
When his or her own perils rise?
Perils rise, perils rise
It's not all about the numbers
It is not all about the numbers

What should we ask for?
Who should we look to if all we know is burning
bridges?
Don't speak to me like I'm a stranger
Turn your thoughts to the roots
As we've all been caught up in the branches
With roots above and branches below

Don't run if you don't know your walk
This is the faith complex
Don't run if you don't know your walk
This is the faith complex
This is a memoir to friends persisting
This is the faith complex
