It's so nice that you can't go back

baby, ain't it nice that you can't go back

and the only way that you can go back

is in your mind.

You don't know just what you're gonna find.

The future is bright and tomorrow is there for you

future is bright and tomorrow is there for you

You might wake up and be a whole new guy!

You don't know just how you're gonna feel.

The future is bright and tomorrow is there for you.

future is bright and tomorrow is there for you.

You might wake up and be a whole new gal.

You don't know just how you're gonna feel.
