You been around enough to know
That if I want to leave you better let me go
Because I take full advantage
Of every man I meet
I get away almost every day
with what the girls call
what the girls call
what the girls call . . . the girls call murder

You been around enough to see
That if you think you're it
You better check with me
Because I take full advantage
Of every man I meet
I get away almost every day
with what the girls call
what the girls call
what the girls call . . . the girls call murder
