"Supernova"

I have looked all over the place, but you have got my
favorite face.

Your eyelashes sparkle like gilded grass and your lips
are sweet and slippery

Like a cherub's bare wet ass ...

Cause you're a human supernova,

A solar superman

You're an angel with wings afire,

A flying, giant friction blast

You walk in clouds of glitter and the sun reflects your
eyes,

And every time the wind blows, I can smell you in the
sky.

Your kisses are as wicked as an F-16

And you fuck like a volcano and you're everything to
me ...

Cause you're a human supernova,

A solar superman

You're an angel with wings of fire,

A flying, giant friction blast

You're a giant, flying friction blast

Cause you're a human supernova,

A solar superman

You're an angel with wings of fire,

A flying, giant friction blast
