(performed on a number of radio broadcasts and at many live shows)  
All the people we all know  
Are wasted away on a holiday  
Everywhere these people go  
They're wasted away  
There's nothing to borrow  
Wasted today, they're wasted tomorrow  
And I wouldn't want it from you  
And I wouldn't take it anyhow  
I just want to borrow time and to give my body peace of mind  
All the people we all know  
Are wasted away on a holiday  
Everywhere my buddies go  
They're wasted away  
Their eyes are like pinholes  
Nothing to say, we're acting like assholes
