Had a white and black sheltie
I don't know when we first got him
Should have taken better care of him
But he had it ok
Sorry when I get unruly
When you carry on so much I get a little tired

Hope you get over your teething
It's not easy when you feel sick
Had to sprightly walk you like him
When he peed up all on your side
Grab your bags that's what he told us
Me and Michael dared each other like we were posited

Derek never woke up at night
And in the morning he's ready to go
And he never had a voice like you
To scream when he wanted something
Should have been so much more willing
To help out with all the things that I felt like we needed

What do you, what do you, what do you...
See what is, see what it is, see what it is...
See inside of the eye, of the eye, of the eye...
See inside of the eye, of the eye, of the eye...

What you get, what you get, what you get...
When you know, when you know, when you know...
Count on me, count on me, count on me...
Count on me, count on me, count on me...

What do you, what do you, what do you...
See what is, see what it is, see what it is...
See inside of the eye, of the eye, of the eye...
See inside of the eye, of the eye, of the eye...
