"Good Lovin' Outside"

There's a place I know where we can go,
Slide on down the wooden staircase,

Good lovin' outside,
Let's find a good place,
And take off your clothing
I stopped wearing a watch,
But I've kissed your face, twice
Since we left the party
And things are really get going
Things are really gettin' going

We can watch the things we eat
Don't need your confiscated key
And we can roll in moss all night
You're kind and sweet and pretty when we're inside
I can kiss you in the kitchen but there's lovin' outside
I'll touch you if you'll touch me
The rain won't scare us cause we're lovin' outside

I'm wearing your shirt
So act like a kid, don't pretend to hit me
Cause we act in the funniest ways
But it's just like it should be
With good love on the outside
