His childhood was anguish field  
With hate, lies  
Betrayal and never ending pain  
Abandoned  
By his family  
For he is not like them  
A genetical error made  
Him a monster  
For everybody  
To see he lived his sick life  
Isolated  
From society  
An adult now he's searching  
For the spirit of live  
In women never  
Really being noticed  
Isolated  
His love turns to hate  
It's only when he can  
Control and rule  
Them that he's satisfied  
Torture was no everything  
But the fun in this sick game  
His nature is characterized  
By pain and hate
