Is saw the fear in her eyes...  
She lost control over here body  
And mind  
Why did it have to get this far?  
We've spent all time together  
But your ignorance  
Torn us apart  
I saw the fear in here eyes I relied on I vain  
Your affection  
Support and the fact of love  
Mean the way  
I am  
I still love you  
Even through  
You're dead  
Now it's now  
I realize how much you mean to me  
Even through  
You're dead  
Now it's now  
You mean to me thrilled by a sense  
Of guilt embossed by grief  
Now is see this life  
This life  
Has become senseless  
(Preposterous me)
