Last car 2 train burning from the rage
Manhattan makes and Brooklyn takes
A lonely desert eagle waiting for his prey
To blow another sucker away

On your feet or on your knees
In the presence of a new God
Let me see you raise a hand
In the presence of a new God

The priests love the little boys playing with their toys
Now they both got a story to sell
There's too much understanding from cowards on the
run
I can serve in heaven 'cause I reigned in hell

On your feet or on your knees
In the presence of a new God
Let me see ya raise a hand
In the presence of a new God

Lock and load

On your feet or on your knees
In the presence of a new God
Let me see ya raise a hand
In the presence of a new God
