

The Dictators

"Prototype"

Visit "[Prototype](#)" on MotoLyrics.com

Buying all your clothes at the shopping mall
Searching for that uniform that really says it all
Driving a Camaro, none blacker can be found
And when you want excitement, just lay your money
down

I am Prototype
Nothing's old and nothing's new
I am Prototype
I got better things to do

Thirteen cars colliding is my favorite sound
I shot hoops with Satan I ran him out of town
Take it to the limit, if you got the guts
And if you want excitement, welcome to the club

I am Prototype
Nothing's old and nothing's new
I am Prototype
I got better things to do

You read it in the papers, you see it on the news
When leaders aren't heros, things sure get confused
Well I won't be your scapegoat, I won't take the blame
You can try and fight it, but nothing stays the same

I am Prototype
Nothing's old and nothing's new
I am Prototype
I got better things to do
