If I talk will you listen, and pay some attention
Ff it's the last time you spend
What good sound advice
When the sounds of your vices are the only thing that
you comprehend
I see the tears in your eyes, I gotta pull you aside
(Don't make a scene they'll here us arguing)

This happened once before
You wound up at his door
(I have nowhere to go)
You still go back for more
(I hate to be alone)
Got to know that, got to know that
This time won't be the same
(You just don't understand)
You're trying to explain
('Cause he's the difference)
Some people never change
Got to know that, got to know that guy

For your lines
And you'd think you'd have your fill by now
But instead, you stay fed
To afraid to bite the hand that feeds you
Your pain it's your guilt
Corner in his room while his anger builds

No one deserves what happens next
(What happens next)
Got promised the world
Why on earth would you settle for less

This happened once before
(I swear I didn't know)
You wound up at his door
(I have nowhere to go)
You still go back for more
(I hate to be alone)
Got to know that, got to know that
This time won't be the same

(You just don't understand)
You're trying to explain
('Cause he's the difference)
Some people never change
Got to know that, got to know this time
This time
This time
This time

I didn't know that
I didn't know that
I didn't know that
I didn't know that
I didn't know that
I didn't know that
I didn't know that
Got to know that

This time won't be the same
(You just don't understand)
You're trying to explain
('Cause he's the difference)
Some people never change
Got to know that, got to know this time
This time
This time
This time
