Ooh - black pearl, precious little girl
Let me put you up where you belong
Black pearl, precious little girl
You been in the background much too long

You been working so hard your whole life through
Tending other people's houses, raising up their
children, too
How about something for me and you
Here in my arms you're gonna reign supreme
No more servin', they've got to serve my queen
It's our turn to happiness and our day has come
Living for each others and answering to no one

Black pearl, precious little girl
Let me put you up where you belong
Black pearl, precious little girl
You been in the background much too long

Together we stand so brave and so tall
Created by love to love one and all
Heart to heart, and soul to soul
No other one can ever take your place
My world is built around ev'ry smile that's on your face
You'll never win a beauty show, no, they won't need you
But you're my Miss Phenomenal and I love you

Black pearl, precious little girl
Let me put you up where you belong
'Cause I love you
Black pearl, precious little girl
You been in the background much too long

Ooh - Black pearl, precious little girl
You been in the background much too long
Black pearl, precious little girl
Let me put you up where you belong
'Cause I love you
